SUMMARY

I'm a motivated MSc Data Science student with a strong background in computer science, currently pursuing my Master's degree. I enjoy bringing ideas to life—whether it's building software, analysing data, or applying machine learning. I'm passionate about solving real-world problems through creativity and collaboration, and I'm constantly exploring emerging technologies in cloud computing, AI, and analytics to drive meaningful impact.

EDUCATION

University of Hertfordshire 2024 - 2026

MSc in Data Science (with placement Year)
Modules: Fundamentals of data Science, Data Handling and Visualisation, Applied Data Science

Jawaharlal Nehru Technological university 2019 - 2023

B. Tech in Computer Science (First Class)
Modules: Java, Data Structures, SQL, Artificial intelligence

WORK EXPERIENCE

TORTILLA Nov 2024 - Present

Team Member

- Prepared approximately **100-150 customer meals daily**, maintaining efficiency and high-quality standards.
- Co-ordinateduse operations leading to a **10% reduction in inventory waste** through meticulous inventory management.
- Facilitated to a **95% customer satisfaction rate** by upholding cleanliness and efficient teamwork in a fast-paced environment.

Mthree Apr 2024 - Jun 2024

Software Developer Intern

- Collaborated within a 3-member Agile team, delivering a Java-based banking project **2 weeks ahead of the planned schedule**.
- Improved software performance by **15%** through efficient implementation of Data Structures and Spring Boot optimization.
- Applied AWS cloud and SQL database solutions, reducing data retrieval latency by **20%** and enhancing application responsiveness.

Hexaware Apr 2022 - Aug 2022

Graduate Engineer trainee Apprentice

- Optimized SQL queries, achieving a **25% increase** in data processing speed and reducing server load.
- Debugged and resolved **over 50 code issues** during apprenticeship, significantly enhancing code quality and reliability.
- Engaged in hands-on coding exercises, delivering clean and maintainable Java code for **5 major feature deployments** during training.

SKILLS

Programming Languages: Python, Java, Java Script, SQL, C++
Tools and IDEs: Spring Tool Suite, IntelliJ IDEA, Eclipse, PyCharm, Git (Version control), VS Code

Certifications and Simulations

- **Microsoft** Azure AI Fundamentals (AI900)
- **Microsoft** Azure Data Fundamentals (DP900)
- **IBM** SQL and Relational Databases 101
- **Mthree** Software Developer
- **JP Morgan Chase & Co** Software Engineering Virtual Job Simulation
- **Accenture, UK** Introduction to Accenture Virtual Job Simulation

Hands-on Technical Projects

Heart Disease Prediction Application using XGBoost

Python, Scikit-learn, XGBoost, SMOTE, StandardScaler, Streamlit

- Developed an XGBoost model to predict heart disease risk with 85% accuracy.
- Enhanced model reliability using SMOTE for class balancing and StandardScaler for feature scaling.
- Deployed via Streamlit with a user-friendly interface for real-time input and risk classification.
- Enabled early detection support for individuals and healthcare professionals through risk-level insights (Low, Moderate, High, Critical).

Flower Image Classification using CNN

Python, TensorFlow/Keras, Hugging Face, CNN, Adam/Adagrad/Adadelta

- Developed a CNN model to classify flower images with 92% accuracy.
- Implemented Adam, Adadelta, and Adagrad optimizers for efficient training.
- Deployed the model using Hugging Face Spaces for real-time image input and classification.
- Aimed to support botanists in identifying flower species from images.

Additional Information

- **Hackathon Coordinator**: Led an 8-member team to organize a college hackathon.
- **Event Coordination:** Managed college tech and cultural fests.
- **Club Involvement:** Active member of dance and singing clubs.

Hobbies and Interests

- Passionate about **fitness and self-discipline**, with regular **morning gym sessions**.
- Actively improve my **coding and problem-solving skills** by solving challenges on **LeetCode**.
- Enjoy reading **personality development books** that strengthen focus and determination.
- Love **exploring new places** through trekking and unwinding with peaceful **beach sunsets**.
